14th March 2018

Cambridge Environmental Assessments, part of RSK ADAS Ltd., sets up a new legal entity in Ireland.

In March 2019, it is expected that the United Kingdom will exit the European Union (“Brexit”). The European chemicals regulation (REACH, EC 1907/2006) requires that producers of chemicals exporting to the European Union (EU) maintain an Only Representative based within the Union.

In order for Cambridge Environmental Assessments (CEA), part of RSK ADAS Ltd., to be able to provide ongoing Only Representative consultancy support to our non-EU clients from within the EU, CEA has set up a new legal entity as “CEA part of RSK ADAS Europe (Ireland) Ltd.”

The company will be based in the offices of RSK Environment (Ireland) Limited, Office Suite B, Bluebell Business Centre, Old Naas Road, Dublin 12, Ireland.

CEA part of RSK ADAS Europe (Ireland) Ltd. will offer the same consultancy services as CEA part of RSK ADAS Ltd. to our current (and to new) clients.

We look forward to supporting our clients from our new offices.

If you require further information please contact steve.ruckman@cea-adas.ie or peter.godfrey@cea.adas.ie

Dr Adrian Terry
Head of CEA
